Mexico's children are only required to go to school through the 6th grade. But in our border region, too many children "fall between the cracks" because their family is too poor to pay for tuition, uniforms, or supplies. If a family cannot afford these things, they can ask to exempt their children from having to attend school. This helps the family financially, but it also traps them in a cycle of poverty.

Thanks to your generosity, we have seen many children advance all the way up into university through the years! We praise the Lord for those who have a heart to help us again this year! Thank you & Muchas Gracias!
